DIGITAL MARKETING DASHBOARD

Sample Report (Atlanta - Q1)

GOOGLE SHEETS

The next few slides include samples of some of the data and the User Interface of the dashboard.

Each sheet within the dashboard is not only linked to the organizational averages sheet, but also to the Yearly Analytics Overview sheet. The Yearly Analytics Overview sheet will take the results from each Quarter and average them for a yearly average and a benchmark for the next. In addition, these Quarter results will be compared to each other to determine growth.

GOOGLE SLIDES

The next few slides include a sample of what each UGA SBDC office received as a Google Slide Deck to track their digital marketing efforts from quarter to quarter, in addition to seeing how any changes made within their digital strategy affected their overall performance in the previous year, and to provide a performance benchmark.

OVERVIEW

Social media is a common tool used to effectively shape one's perspective of a brand. As the UGA SBDC continues to **build our brand awareness** throughout the state and strengthen our credibility as industry experts, it's imperative that we pay more attention to our social media channels and use it to our advantage to reach our target audience. Included in this report you will find your individual center statistics, overall organization averages, in addition to industry averages. Use this data to improve your social media presence and increase engagement.

ORGANIZATION GOALS FOR SOCIAL MEDIA

- Increase **brand awareness**.
- Engage with more **professionally managed** and **established businesses**.
- Tailor content to be more **growth specific** and less startup specific content.
- Share **more client success** and SBDC impact.
- Focus more on **education opportunities** and outcomes to increase CE attendance.

ORGANIZATION AVERAGES

The following statistics are our total organization averages for social media
(excluding the State Office).

Q1 - 2018

CENTER AVERAGE COMPARED TO OVERALL ORGANIZATION, INDUSTRY, AND STATE OFFICE AVERAGE

Monthly Email Rate (Constant Contact)

Open/Click/Unsubscribe Rates (Constant Contact)

SUGGESTIONS

RECOMMENDATIONS

OPEN RATE

Your click rate is above average, which is great. However, before someone can click within your email, they have to open it. Try crafting better subject lines to get the attention of your audience.

TWITTER

Increasing how often you post on Twitter and interact with community members could help boost your brand awareness, strengthen credibility, and introduce content in new networks.

FACEBOOK

Increasing how often you post on Facebook and interact with community members could help boost your brand awareness, strengthen credibility, and introduce content in new networks.

POST QUANTITY

To help increase posting frequency, try creating a social media calendar with important topics to cover each week. Then, at the beginning of the week, pre-schedule posts for the entire week.

THE END.
